This image displays a wide variety of precision-machined brass components. The parts include: small threaded fittings and elbows; larger cylindrical connectors with internal or external threads; a long, thin bolt with a hexagonal head and nut; a large, complex valve body with multiple ports; several smaller valves and actuators, some featuring black O-rings; a large, curved bracket with mounting holes; a gear-like component with many teeth; and various other specialized hardware like pins, washers, and custom-shaped brackets. All items are made from polished brass and are arranged against a plain white background.
